

# AUSTRIA CONNECTION

## BRATISLAVA INTERLUDE 2018

Bratislava, the capital of Slovakia, was already a large city in the 12<sup>th</sup> Century. The Old Town is lively, cosmopolitan and charming and offers a rich cultural life. The historical baroque palaces and buildings are concentrated in the Old Town, with remnants of the medieval fortifications also still in existence. Bratislava borders both Austria and Hungary and is therefore the only national capital that borders two independent countries. As the political, cultural and economic centre of Slovakia, Bratislava is home to the Slovak president, the parliament and several universities, museums, theatres and other important cultural and educational institutions.
